DETAILED ACTION

Response to Amendment

Applicant's arguments with respect to claims 1,4-20,23,24,26-31,33-34 have been considered but are moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 5,7,9,20,28,29,30,31, are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 5 and 7 some terms are contained within parenthesis. It is unclear if these terms further limit the claim or not. Also, it is indefinite as to what a "locked nucleic acid". There is no evidence that this is an "art recognized" term and there is no description within the disclosure as to what such a term defines. Further, claims 5 and 7 contain a trademarked term, (Proligo), which is prohibited.

In claim 9, it is indefinite as to what "losses" defines.

In claim 20 it is indefinite as to what structure of the device form the claimed "gap".

Art Unit: 1744

Response to Arguments

Applicant's argument that the prior art of record fails to teach or suggest a common electrode that is a counter electrode for the pin electrodes and wherein the common electrode is arranged within the recess in a manner that the common electrode does not come into contact with the pin electrodes. Accordingly, the prior art rejections have been withdrawn.

Allowable Subject Matter

Claims 1,6,8,10-19,23,24,26,27,33-34 are considered to be allowable over the prior art of record.

Claims 5,7,9,20,28,29,30,31 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

As allowable subject matter has been indicated, applicant's reply must either comply with all formal requirements or specifically traverse each requirement not complied with. See 37 CFR 1.111(b) and MPEP § 707.07(a).

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1744
